

Alarm Systems

VAS200 Series

Product Features

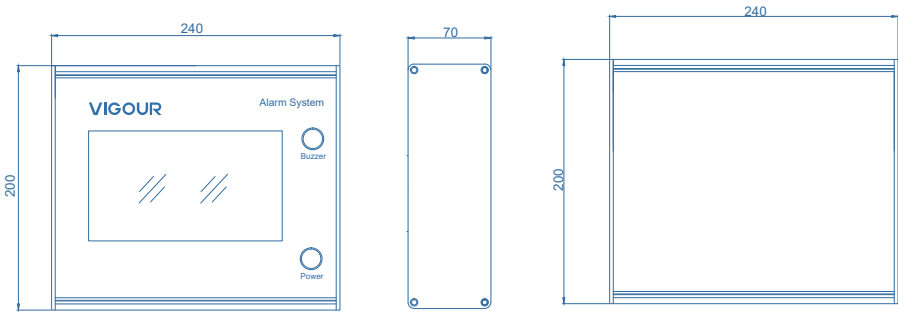

- Real-time display of gas pressure numerical display
- High and low voltage alarm function
- The color of the value box changes to red when warning, and there is a buzzer alarm
- There is a trunk line. Action output signal for pressure alarm
- High and low alarm values can be set according to field requirements
- Realized real-time count automatically saved
- With gas curve analysis function
- Alarm fault signal automatically saved

Technical Data

Type of monitoring:	unrestricted
Supply voltage:	AC220V(110V) / 50Hz
Power consumption:	30W
Input capacity:	max. 20 channels
Input signal:	4-20 mA
Output contact:	2
Output voltage:	DC 24V
Output current:	3A
Communication interface:	RS485
Touch screen size:	7 inch (6~16 channels) / 10 inch (20 channels)
Dimensions:	240x200x70 mm

Dimensions (mm)

Ordering Information

VAS200 - 8 - 110 - MS

Input Capacity

- 6: 6 channels
- 8: 8 channels
- 12: 12 channels
- 16: 16 channels
- 20: 20 channels (10 inch)

communication interface

- None: RS-485
- MS: Send alarm message

Supply Voltage

- None: AC220V
- 110: AC110V
